Re: Development of Waste Transfer Station in Pawtucket

Dear Mayor Grebien:

I have been a proud resident of the City of Pawtucket for over ____ years.

Recently, I learned through media reports that a waste transfer station is in the process of being developed in my neighborhood. The proposed site is 55 Concord Street, Pawtucket, Rhode Island, which is less than ____ miles from my home.

This waste transfer station deeply disturbs me. I am concerned about the negative effects it will have on me, my family, and the overall quality of life in my neighborhood.

I ask that you reconsider and suspend your plans to locate a waste transfer station at the Concord Street site.

Your consideration and responsiveness to the expressed needs and wishes of the Fairlawn neighborhood and its business community will greatly influence my vote in the next election.

Sincerely,
